

GMFCS Family Report Questionnaire:
Children Aged 4 to 6 Years

Please read the following and mark **only one box** beside the description that best represents your child's movement abilities.

My child...

- Has difficulty sitting on their own and controlling their head and body posture in most positions
and has difficulty achieving any voluntary control of movement
and needs a specially-adapted supportive chair to sit comfortably
and has to be lifted or hoisted by another person to move
-

- Can sit on their own but does not stand or walk without significant support and adult supervision
and may need extra body / trunk support to improve arm and hand function
and usually needs adult assistance to get in and out of a chair
and may achieve self-mobility using a powered wheelchair or is transported in the community
-

- Can walk on their own using a walking aid (such as a walker, rollator, crutches, canes, etc.)
and can usually get in and out of a chair without adult assistance
and may use a wheelchair when travelling long distances or outside
and finds it difficult to climb stairs or walk on an uneven surface without considerable help
-

- Can walk on their own without using a walking aid, but has difficulty walking long distances or on uneven surfaces
and can sit in a normal adult chair and use both hands freely
and can move from the floor to standing without adult assistance
and needs to hold the handrail when going up or down stairs
and is not yet able to run and jump
-

- Can walk on their own without using a walking aid, including fairly long distances, outdoors and on uneven surfaces
and can move from the floor or a chair to standing without using their hands for support
and can go up and down stairs without needing to hold the handrail
and is beginning to run and jump
-
