Our Mission

Children's Mercy Hospital provides the highest level of medical care, technology, services, equipment and facilities in promoting the **health and well-being of children** in the region, from birth through adolescence. Patients and their families are **treated with compassion** in a family-centered environment that recognizes their physical, emotional, financial, social and spiritual needs. The **comprehensive health care** environment provided by the hospital includes clinical services, **research and teaching** efforts which are designed to serve today's and tomorrow's children and the community in which they live.

CHILDREN'S MERCY

**our hospitals,
our services**

Children's Mercy Hospital of Kansas City is one of the best hospitals in the United States. We are a recognized leader in caring for children and our staff travels around the world to share its expertise. The high quality of our patient care has received some of the most prestigious honors, including Magnet status from the American Nurses Credentialing Center.

For more than a hundred years, **Children's Mercy Hospitals and Clinics** has been serving the Kansas City area community. In the past few years it has extended its services to include families that have traveled from all over the world in search of the invaluable expertise that our specialized staff offers.

Excellence in pediatric care

Children's Mercy

provides the highest quality pediatric experience available for a great variety of medical conditions. We are here to serve the children and their families from all over the world.

Some of our specialties:

■ Heart surgery ranked among the firsts at world level due to the volume and complexity of the surgeries performed and the success of their outcome. Our surgeons perform surgeries in newborns, children and adults with congenital heart problems.

■ Orthopaedic surgery which treats children with injuries and congenital or developmental conditions that affect muscles, bones and nerves. Our orthopedic surgeons specialized in problems that vary from sports injuries to serious musculoskeletal problems.

■ Ophthalmology services, with physicians specially trained in eye disorders of childhood, provides medical and surgical management for eye problems in children including treatment of common problems such as eyelid abnormalities and strabismus to cataracts, glaucoma and eye tumors.

■ Plastic, craniofacial and reconstructive surgery provide evaluation, diagnostic and treatment services for children with congenital and developmental anomalies of the head, neck and hands.

We're here to assist you

Children's Mercy offers the region's most **extensive pediatric expertise**. Our physicians, nurses and technicians are all trained specifically to work with children. But even more importantly, they want to work with children!
