PURPOSE AND TARGET AUDIENCE

This program is designed to provide primary care physicians, pediatricians, family practice physicians, nurse practitioners, nurses and other health care professionals who care for pediatric patients a specialty care update in the areas of Asthma, Cardiology, Emergency Medicine, Gastroenterology and Plastic Surgery.

COURSE OBJECTIVES

At the completion of this course, the active participant should be able to:

- Describe the current concepts of cleft care from prenatal diagnosis to adulthood;
- Describe current treatment strategies and outcomes for critical cardiac diseases;
- Monitor asthma control in their patients;
- Review the medical treatment of inflammatory bowel disease in children;
- Discuss the pathology, diagnosis, and treatment of deformational plagiocephaly and when to refer; and
- Review the most common pediatric emergencies that present to the office practice, and the contents of the office “emergency kit”.
