

Care Assistant Training Program

READY TO EMBRACE YOUR POTENTIAL? START HERE.

It takes a village to raise happy, healthy kids. At Children's Mercy (CM), a Care Assistant is a big part of that. When families turn to us, it's all hands in to create a helpful, positive experience.

Critical to the nursing team, a Care Assistant is often one of the first faces patients and families see. Whether it's to take vital signs, communicate next steps, assist with daily care, or explain procedures, these are the moments people remember from their visit to our hospital.

If you're ready to be a right-hand and start the journey to a clinical career, this is an awesome program to power your potential, and theirs.

About the program

- 8 weeks of pediatric-specific training
- Facilitated by CM Clinical Instructor
- Includes clinical and classroom instruction
- Learn to take vital signs, interact with families, partner with care teams, assist with daily patient activities and more
- Clinicals take place on nursing units
- Transition to the role after training is complete

An outstanding program that gives hands-on experience in a competitive field. It gives priceless education while introducing you to lifelong friends. Thank you Children's Mercy!"

– Katie Wasicko

How the programs benefits you

- Receive salary and are benefit eligible during training
- No previous healthcare experience required
- Earn Basic Life Support (BLS) certification
- Guaranteed a position after successful completion of the program
- Get a strong start to a clinical career

Application dates for 2024:

- Open on May 20th for July 15th classes
- Open on July 16th for September 9th classes

How to apply

1. Visit childrensmercy.org/careers
2. Select the Student Care Assistant position
3. Complete the application and video
4. Connect with Human Resources for potential interview and offer

Apply today or learn more from our Care Assistant training at <https://bcove.video/3P4j3Ym>. For questions, connect with Angie Richardson at arichardson@cmh.edu.

The path to your potential (and theirs!) is just weeks away.
