

MAKING IMPROVEMENTS WITHIN OUR COMMUNITIES

WHAT WE IDENTIFIED

PROGRESS WE'VE MADE

3.1

Increase efforts to prevent, detect and intervene earlier with children above a healthy weight range

3.2

Increase Children's Mercy's support for breastfeeding and their infants

3.3

Lead efforts to implement consistent community messaging among Kansas City area partners to increase healthy lifestyle behaviors

3.4

Improve policy and environments in healthcare, child care, and schools that make it easier to practice healthy eating and active living behaviors supporting healthy weight, support school and child care wellness policies and practices

3.5

Continue to provide public policy leadership to initiatives that promote healthy lifestyles in childhood

3.6

Promote community collaborations and effective partnerships that address community health needs in regards to nutrition, physical activity and weight status
