3rd Annual Regional Neonatal Conference: DECISION-MAKING FOR OPTIMAL CARE AND OUTCOMES
Brought to you by Children’s Mercy Kansas City Neonatal Outreach Education

Children’s Mercy Park
1 Sporting Way, Kansas City, KS 66111

FRIDAY APRIL 7, 2017
TARGET AUDIENCE
This full-day conference is intended for those clinicians who participate in the care of neonates.

LEARNING OUTCOMES
Optimize neonatal care and outcomes through the following:
• Increase your knowledge on current state of neonatal care.
• Identify at least one strategy that could be implemented in your practice.
• Identify resources available.

COURSE OBJECTIVES
• Describe the resuscitation science utilized in the development of the 7th edition of NRP.
• Discuss how to apply new NRP recommendations in real life situations.
• Review risks of transmission of illicit substances via breast milk.
• Reduce the risk of Sudden Infant Death Syndrome by applying learned behaviors.
• Identify ways to model safe sleep behaviors in all infant sleep areas, i.e., hospitals, clinics, day cares, home.
• Discuss the decision-making for management of RDS and/or pneumothorax with respect to disease severity, available resources, mode of transport, available non-invasive/invasive ventilation modalities and other challenges unique to the transport setting.
• Review logistical components of compassionate end-of-life care.
• Discuss the management of specific disorders encountered in IDMs.
• Discuss ways to improve the outcomes of care for children with complex congenital heart disease.
