Adele Hall Campus
2401 Gillham Road
Kansas City, Missouri 64108
Phone: (816) 234-3199
Fax: (816) 983-6371

Children's Mercy Kansas
5808 West 110th Street
Overland Park, Kansas 66211
(913) 696-8570
(913) 696-8695

Date: _____

To whom it may concern:

_____, has a medical device called a Dynamic Compression Brace. The metal brace goes around the chest and is used for correction of a pectus carinatum. Pectus carinatum is a chest wall abnormality that results in protrusion of the sternum and rib cartilages. Please allow the brace to be worn during travel. The brace should be removed during physical activity. There is no activity restrictions and it can removed anytime.

If you have any questions, please feel free to contact us 816.234.3199.

Sincerely,

Children's Mercy Pectus Team

Shawn St. Peter, MD
Surgeon-in-Chief
