

PRAM (Pediatric Respiratory Assessment Measure)

	Score	Score	Score	Score
Signs	0	1	2	3
Suprasternal retractions	Absent		Present	
Scalene muscle contractions	Absent		Present	
Air entry	Normal	Decreased at bases	Widespread decrease	
Wheezing	Absent	Expiratory only	Inspiratory and expiratory	Audible without stethoscope/silent chest with minimal air entry
Oxygen Saturation	≥95%	92-94%	<92%	

If asymmetric findings (air entry and wheezing) between right and left lungs, rate the more severe side
