Stewart Terry  
Hospital Specialist – Kansas City  
Abbott Nutrition Div, Abbott Labs

I've been the Hospital Specialist in KC for the last 10 years. I'm in my 35<sup>th</sup> year with Abbott and have seen a lot of changes in Infant nutrition and outcomes, especially Preterm Babies! I'm proud of the advances Neonatal MD's, NNP's, RD's, & RN's – NICU's and Hospitals have made to improve the lives of so many.

NIPPLES

# CHIESI USA

## CUROSURF

Chiesi is based in Parma Italy

1987- Chiesi partners with researchers to facilitate the development of CUROSURF

Chiesi has a growing focus on neonatal pathologies with research efforts focusing on neonatology, respiratory and rare disease.

Chiesi was granted the B Corp certification. We have joined a growing community of companies united by the common goal to balance people, planet, and business.

My name is Sonja Roper and I am proud to say that I have been with Curosurf for 13+ years. I live in Kansas City and my territory includes Kansas, Oklahoma and western Missouri

# Dräger

Dräger. Technology for Life®

## Ron Whaley RRT-NPS

I am a Respiratory Therapist and have been a bedside clinician for over 20 years working in many care areas which include Trauma, ER, PICU, and NICU. My role at Draeger Medical is Clinical Application Specialist which allows me to introduce many of our wonderful products to Hospital Leadership, Nurse Managers, Educators, as well as Clinical Staff. I go over the clinical aspects of our Neonatal Care & Thermoregulation Devices.

Draeger is a German based Medical Device Company specializing in Anesthesia, Ventilation, and my specialty Neonatal Care & Thermoregulation.

I am here today to showcase the features of our BabyLeo TN500, Draeger's first Incuwarmer that provides optimal Thermoregulation for Neonates in Open Care, Closed Care, as well as in Transition, as well as discuss the features of our BiliLux Phototherapy light, that is compact and lightweight while delivering superior phototherapy performance.

# Finn the Panda is specially designed to support babies and their caregivers in the hospital, with bonding, comfort and development.

Learn from former NICU mama, Michelle Armstrong, how Finn the Panda is helping support families on their NICU journeys.

Finn the Panda features:

- Removable scent patch
- Recording device that can be played back once or on repeat
- Black and white to appeal to baby's early vision
- Antimicrobial treatment and enclosed packaging

Johnson's®  
CHOOSEgentle™

We're committed to delivering  
the best for babies.

#1 choice of hospitals,  
#1 choice of parents.\*

JOHNSON'S® CottonTouch®

JOHNSON'S® CottonTouch™ is  
clinically proven not to disrupt  
babies' developing skin &  
microbiome and preserves the  
mildly acidic pH of babies' skin,  
helping maintain barrier function.<sup>1</sup>

## Saving nurses and infants from feeding errors (and expirations)

....

**Keriton Kare** is a **feeding management, lactation analytics, and patient engagement** system.

It solves problems related to breast milk, donor milk, and formula feeding management for Children's Hospitals and NICUs.

Most hospitals integrate Keriton's HIPAA compliant, **Software-as-a-Service** solution with their EMR.

**Asim Malik**

**Head of Sales**

**4.5 years at Keriton.**

15 years in health tech, with the last 7 years in health tech startups.

In our efforts to support education, we are excited to offer healthcare professionals the eBook download of the latest expert guidelines in the **Nutritional Care of Preterm Infants**. This updated edition reflects a critical evaluation of the current clinical evidence and science supporting the feeding of preterm infants by leading global experts in the field.

Scan to download or email [Courtney.Gard@reckitt.com](mailto:Courtney.Gard@reckitt.com) for your own book!

The image shows the cover of the book 'Nutritional Care of Preterm Infants' on the left and a QR code on the right. The book cover is white with a photograph of a baby's feet. The text on the cover includes 'World Review of Nutrition and Dietetics', 'Nutritional Care of Preterm Infants', 'Scientific Basis and Practical Guidelines', '2nd Edition', and the names of the editors: Berthold Koletzko, Poek-Chen Chien, Magnus Domelluf, Brenda B. Poindexter, Nestor Vain, and Johannes B. van Goudoever. The QR code is black and white, and the text next to it says 'Scan to download your complimentary e-book or visit hcp.meadjohnson.com'. At the bottom left of the image, there is a small text string: 'LA3151 NEW 4/22 ©2022 Mead Johnson &amp; Company, LLC'.

# Your Mölnlycke Team
