

Legacy Match Opportunity

Amplify the Power of your Legacy

Your future gift can make an even greater impact for kids like Chasina – starting today!

When you include Children's Mercy in your estate plans, such as through a bequest in your will, your generosity will be enhanced by a 10% matching gift through our Legacy Match Program

This means your commitment goes further – helping ensure that children in our community receive the expert care and groundbreaking research they need to thrive for generations to come.

Born at just 22 weeks with a hole in her heart, Chasina faced overwhelming odds. At only a few weeks old, she underwent heart surgery at Children's Mercy. What followed was nearly a year in the NICU, where every moment mattered.

"Children's Mercy was the best place for her. Everyone was so kind. They helped my baby thrive and become the joyful little girl she is today." – Renee, Chasina's mom

LEAVE A LEGACY OF HEALING. MULTIPLY YOUR IMPACT.

We look forward to connecting with you to learn more about your charitable goals and how the Legacy Match Program can boost the impact of your giving today!

- All new, documented legacy commitments of or reevaluations adding **\$50,000** or more will be eligible for the match.
- Your gift will be **matched by 10% cash today**, up to **\$250,000**.
- The matching portion will be recorded as a **current cash gift** and immediately put to work in one of our strategic priority areas — chosen by you — to benefit children right away.

Both your future legacy and today's matching gift can be directed to the areas that matter most to you, helping ensure every child receives exceptional care while advancing bold initiatives that build a world of wellbeing for all children.
