After a beautiful Kansas City summer, the fall settles in and so do our NEW INTERNS! The 2013 class started in July, so be sure to give them a warm welcome!

Christina Low, M.S., joins us from Washington State University in Pull-

man, WA, and her dissertation was titled "Temperament in Young Children with Fragile X Syndrome." Her primary professional interests include kids with developmental disabilities, autism spectrum disorders, and working in behavioral pediatrics. Outside

work, she enjoys cooking, crafts, and watching movies.

Chelsey Morrison joins us from Wheaton College, where her dissertation focused on "Hope and Connectedness in Guatemalan Youth." Professionally, she is primarily interested in autism spectrum disorders, stress and coping, and resilience, across multiple populations. Outside of work, she enjoys cooking, baking, volunteering, and traveling.

Natalie Passanante comes to Children's Mercy from Baylor University, where she is completing a dissertation on "Associations Between Sleep and Memory in a Clinical Sample of Obese Children and Adolescents." She is particularly interested in behavioral interventions for children with autism and other developmental disorders. When not at work, she enjoys running, dinner with friends, and traveling to visit family.

Also introducing: THREE excellent fellows for 2013-2014

We are excited to welcome three post-doctoral fellows this year:

Erika Doty, PhD completed her doctoral work at George Fox University in Portland, OR, where her dissertation was titled "Factors that predict referrals for behavioral health consultation in children in a primary care setting." She was an intern at CMH last year, and has remained here for fellowship! Her professional interests include ADHD and anxiety disorders, particularly including treatment within multidisciplinary teams and collaborating with PCPs. Outside work, she likes cooking, travel, spending time with friends and family, and decorating/fashion.

Simone Moody, PhD completed her doctoral work at Texas Tech, where her dissertation related to improving readiness for lifestyle/behavior change in overweight youth. She has remained at CMH after completing her internship, and has continuing professional interests in behavioral pediatrics, parent-child relationship, child externalizing behavior problems, parent training, child maltreatment/trauma, and pediatric obesity. Outside of work, she likes to spend time with friends and family, be outside, watch college football ("Go Gators and Red Raiders!"), travel, exercise, and read.

Laura Slosky, PhD completed her doctoral work at Virginia Commonwealth University where her dissertation was titled: "Primary Caregivers of Children with Williams Syndrome: Posttraumatic Growth and Related Health Outcomes." She completed an internship at the Mailman Center for Child Development and joins us for a fellowship primarily dedicated to the GI service including the Abdominal Pain program. Her interests include behavioral pediatrics, feeding disorders, GI issues, positive psychology, and family adjustment to child illness. Outside of work, she enjoys baking, exercise, travel, and spending time with family and friends.

Prior Interns

Former CMH interns are working across the US in academic medical centers, private hospitals, group and private practices, and teaching at colleges and universities.

Kansas City is a great place to live, with lots to do (parks, museums, jazz clubs, sports, etc), and a reasonable cost of living!

Update on last year's interns:

Megan DiQuattro, Ph.D. traveled to Atlanta, Georgia where she is completing a two-year APCN Pediatric Neuropsychology Fellow at Children's Healthcare of Atlanta (CHOA) and Emory University School of Medicine. Clinical rotations include Rehabilitation (inpatient and outpatient), Cardiac, Epilepsy, and outpatient assessment. Additionally, she is conducting research through the Rehabilitation program.

Erika Doty, Ph.D. stayed on at CMH for her post-doctoral fellowship; see her introduction on the first page!

Simone (Sherman) Moody, Ph.D. stayed on at CMH for her post-doctoral fellowship; see her introduction on the first page!

D&B Trainee Spotlight!

In addition to psychology interns and post-doctoral fellows, our division includes 10 one-year practicum students (8 clinical and 2 research) from area universities including the University of Kansas (Clinical Psychology, Child Clinical, and Counseling Psychology programs), and the University of Missouri-Kansas City (Clinical Psychology and Counseling Psychology programs). We also host Pediatrics residents for one-month rotations, and these residents spend time with our Psychiatrists, Developmental/Behavioral Pediatricians, and Psychologists in a variety of clinical settings.

Further, the Division of Developmental and Behavioral Sciences also has a fellowship in Developmental Behavioral Medicine! Our current D&B fellows are:

Benjamin Black, M.D.: Dr. Black completed medical school at Jefferson Medical College in Philadelphia, and his residency here at Children's Mercy Hospital. In addition to his fellowship in D&B, he is also pursuing a fellowship in Clinical Pharmacology, and has clinical and research interests in the use of psychopharmacology in preschoolers (and particularly with ADHD).

Lisa Pham, D.O.: Dr. Pham attended the Texas College of Osteopathic Medicine and stayed on at the University of North Texas HSC for her residency. Her primary interests include ADHD, food selectivity and nutrition intake in children with autism, and cultural differences in the perception of mental health issues.

The Child Psychology Internship at CMH

The psychology internship at Children's Mercy provides intensive training in psychological assessment, treatment, and interdisciplinary collaboration in the context of a dedicated pediatric academic health care environment. By providing the highest-quality supervision and training, the program aims to facilitate a well-balanced set of clinical and professional skills to prepare interns for successful careers as psychologists.

The internship is accredited by the American Psychological Association, and is a member of the Association of Psychology Postdoctoral and Internship Centers (AAPIC).

Both the Clinical Child and Pediatric Psychology tracks aim to provide interns with

(A) a variety of depth and breadth of experience within a pediatric academic medical center,

(B) opportunities for interprofessional development and collaboration through integration into pediatric subspecialty clinics, and

(C) knowledge of successful integration of research into clinical practice.

Clinical Child Track

A year-long outpatient clinical child experience and three 4-month long rotations in ADHD/Behavioral Pediatrics, Special Needs, and Eating Disorders, as well as through research, and didactics. The clinical child track emphasize experiences that build skills that will prepare interns to be competitive for fellowships in clinical child psychology and for careers in academic medical centers, primary care clinics, private practice, and a variety of settings.

Pediatric Psychology Track

A full year of experience in inpatient consultation/liaison and outpatient child psychology clinic and three 4-month long rotations in medical specialty clinics, neuropsychology, and pain management as well as through research, and didactics. The pediatric psychology track emphasize experiences that build skills that will promote interns being competitive for pediatric fellowships and being successful in careers as pediatric psychologists.

See website and APPIC documents for full descriptions of the internship and tracks!

Medical and Clinical Staff

The remainder of this newsletter includes information about the Medical Staff (psychologists, psychiatrists, and developmental behavioral pediatricians) and other Clinical Staff (Clinical Social Workers dedicated to various areas of the hospital), who are members of our Division. Each of the faculty interact with interns. Some may be primary supervisors or mentors, others may supervise during a major clinic rotation or "mini" medical rotation, and others provide didactics. All, though, are interested in helping interns to have the best experience possible during their year at CMH.

Our Staff have provided this information to help you get to know us, our accomplishments, and what Children's Mercy has to offer. Note that these are limited and abbreviated bios; if you'd like more information, you can find a biosketch and/or full CV on the internship website for all our Medical Staff.

Staff are organized by the primary track in which they would likely interact with interns, although some interact with interns across both tracks. It's also worth noting that our 34 psychologists work on multidisciplinary inpatient and outpatient teams throughout the entire hospital!

Thanks for reading; we look forward to getting to know you!

Clinical Child Track

Brian Belden, PhD:

Clinical Duties: part of a multidisciplinary team in the Down Syndrome Clinic, and I also provide general outpatient psychological services

Administrative Activities: Chief Psychologist for Section of Developmental & Behavioral Sciences; Children's Mercy Hospital Wellness Committee member

Community Outreach: "Understanding functional analysis" (May, 2012). Invited presentation to staff of the Down Syndrome Clinic; CMH.

"Normal development and age-appropriate discipline" (May 2012). Invited presentation to APRN Meeting; CMH.

"Teaching children right from wrong" (August, 2010). Professional workshop for child care workers at Great Beginnings Early Childhood Center; Kansas

Rochelle Harris, PhD, ABPP:

Clinical Duties: I have a diverse child-clinical outpatient practice in the Continuity Clinic where I see children from age 4 – 18 for targeted assessment and outpatient follow-up.

Administrative Activities: Training Director of Psychology Internship Program, Associate Chair of CMH Medical Staff Education Committee, Developmental and Behavioral Sciences Leadership Committee

Community Outreach: Jackson County Mental Health Levy Board Member.

Christy Kleinsorge, PhD:

Clinical Duties: participation in the South Feeding Team and outpatient services with patients with feeding problems; consultation and outpatient services with Epilepsy Team patients; coverage of South hospital consults and of downtown hospital consults as part of our rotating inpatient consultation/liaison coverage.

Administrative Activities: Associate Training Director—Director of Clinical Child Psychology Track; Psychology Postdoctoral Education Coordinator

Scholarly Activity: Kleinsorge, C., & Covitz, L. (2012). Impact of Divorce on Children: Developmental Considerations. *Pediatrics in Review*, 33(4), 147-155.

Kleinsorge, C.A., Roberts, M.C., Roy, K.M., & Rapoff, M.A. (2010). The Program Evaluation of Services in a Primary Care Clinic: Attaining a Medical Home. *Clinical Pediatrics*, 49, 548 – 560.

Carla Allan, PhD:

Clinical Duties: I work as a part of a multidisciplinary team in the ADHD Specialty Clinic.

Administrative Activities: Director of Psychological Services at the ADHD Specialty Clinic; Director of the Summer Treatment Program for ADHD; Reviewer for *Journal of Developmental and Behavioral Pediatrics* and the *Journal of Clinical Psychology in Medical Settings*.

Community Outreach: "Empirically-supported treatment approaches for children and adolescents with Attention-Deficit/Hyperactivity Disorder to an audience of med-peds physicians." (2011) Grand Rounds at Goppert Trinity, Kansas City, Missouri.

"Adolescent Mental Health." (2011) Staff training regarding common mental health conditions for adolescents and evidence-based treatments to an audience of nurses. Children's Mercy Hospitals and Clinics: Advanced Practice Registered Nurse Meeting.

"The Modern World and Adolescent Mental Health." (2011) Presented information regarding common mental health conditions for adolescents to an audience of doctors, nurses, teachers, and social workers. Mother and Child Health Coalition.

"Empirically-Supported Approaches for children and adolescents with Attention-Deficit/Hyperactivity Disorder." (2010) Grand Rounds at Stormont-Vail Hospital, Topeka Kansas. Presented information regarding diagnosis and psychosocial treatments for ADHD to an audience of pediatricians.

Scholarly Activity: **Grant:** "A Systematic Replication of and Extension of the Summer Treatment Program Evaluating ADHD Treatment Outcomes." Children's Mercy Kathryn B. Richardson Award, (2010-2012) **Role: PI**

Christophersen, E.R., & **Counts-Allan, C.** (2012). Empirically Supported Therapy for Children and Adolescents in Pediatric Psychology Settings. All Day Continuing Education *Workshop presented* at the 2011 Conference of the American Psychological Association: Orlando, FL, August.

Allan, C. (2012). Evidence Based Assessment and Psychosocial Treatment for Young Children with ADHD. *Presented* at the Paul Laybourne Symposium on Child Psychiatry: Olathe, KS.

Allan, C. (2012). ADHD in the Young Child: Behavioral Therapy Techniques. *Presented* at the Paul Laybourne Symposium on Child Psychiatry: Olathe, KS.

Clinical Child Track

Ed Christopherson, PhD, ABPP:

Clinical Duties: Primary clinical duties are to provide services to young children (ages less than one year to about 4-5) with common behavior problems such as toileting, sleeping, anxiety (including Selective Mutism), tantrums/oppositional/ADHD and Habit Disorders and Tics. Typically I supervise a Predoctoral Clinical Child Intern two half-days a week and a Postdoctoral Clinical Child Fellow two half-days a week.

Administrative Activities: Chair of the Non-Physician and Non-Clinical Physician Promotion's Committee for the University of Missouri at Kansas City School of Medicine. Member; Advisory Committee, Office of Faculty Affairs, Children's Mercy Hospital. Member, Mental Health Pilot Advisory Committee, American Academy of Pediatrics. Member, Board of Editors, *Journal of Developmental and Behavioral Pediatrics*. Member, Board of Editors, *Journal of Clinical Practice in Pediatric Psychology*. Reviewer, Clinical Practice Guidelines for ADHD, American Academy of Pediatrics, 2011. Editorial Referee: *Journal of Developmental and Behavioral Pediatrics*, *Pediatrics*, *Health Psychology*, *Journal of Clinical Psychology in Medical Settings*; Reviewer, Program Committee, Pediatric Academic Societies, 2010 – present; Chair, APA, Division 54, Fellow Committee; APA, Division 54, Student Award Competition Committee, 2007-present; Adjunct Professor, University of Kansas, Department of Applied Behavioral Sciences.

Community Outreach: Community Advisor, Junior League of Kansas City, MO; Board of Experts and Member, Medical Advisory Board, babycenter.com. Media Appearances, 2012 - present: 7 radio/television interviews; 18 print interviews.

Scholarly Activity: **Grants:** "Parenting Skills and Nutrition Education to Treat Overweight/Obesity Among Young Children." Kenneth and Eva S. Smith Foundation Clinical Scholar Award, 2009-2012. **Role: Co-PI.**

"A Systematic Replication and Extension of the Summer Treatment Program: Evaluating ADHD Treatment Outcomes." K.B. Richardson Associates Fund at CMH, 2010-2012. **Role: Co-PI.**

Nadler, C. & Kelley, M. (2012, May). Differential effects of a progressive DRO schedule across stimuli. In N. Call (Chair), Application of Behavior Economic Procedures for Assessing and Treating Problem Behavior. Symposium presented at the 38th annual meeting of the Association for Behavior Analysis International, Seattle, WA.

Nadler, C. & Allen, K. (2012, March). What can behavior analysts learn from behavioral parent training? Paper presented at the 6th annual meeting of the Heartland Association for Applied Behavior Analysis, Omaha, NE.

Katie Lindberg, PsyD:

Clinical Duties: Assessment of autism, ADHD, and developmental disabilities.

Vicki Little, PhD:

Clinical Duties: Director of Autism Services. Lead multidisciplinary teams for Developmental Disorders evaluations; I supervise other psychologist who are part of the Autism Contract. I supervise Education Coordinator and Parent Resource Specialist for Autism Contract.

Administrative Activities: Administer Missouri State Contract for Autism Services; Collaborate with other MO Autism Centers and State Autism Office. Member of Leadership Team for D&B.

Clinical Child Track

Bo Youngblood, PhD:

Clinical Duties: Assessment and treatment of autism spectrum disorders, noncompliance, school-related problems, ADHD, adjustment disorders, enuresis, encopresis, toilet training, tantrums, aggression, pill-swallowing

Community Outreach: Member of Century School Board; “Strategies for managing anxiety and disruptive behavior in the dental setting” (April, 2012). Invited panel presentation at the Midwest Dental Conference; University of Missouri-Kansas City, School of Dentistry

Scholarly Activity: Barone, V.J., Wassom, M.C. & Youngblood, J. (In Press) Developmental and Behavioral Promotion. In Frances Page Glascoe, F.P., Marks, K.P., Poon, J.K., & Macias M.M. (Eds.), *Detecting and Addressing Developmental-Behavioral Problems: What Works in Health Care and Other Settings*. Brookes Publishing.

Christine Moser, PsyD:

Clinical Duties: I do psychological testing as well as child and family psychotherapy for the outpatient continuity clinic. I see children of all ages but work a lot with young children. I supervise psychology interns. I conduct research on suicide prevention and resilience.

Administrative Activities: Member UMKC SOM Council on Evaluation; Member Subcommittee for Suicide Prevention of the Governor’s Mental Health Services Planning Councils for the state of Kansas.

Community Outreach: “What You Can Do For LGBT Youth.” (2012) Invited Presentation. Sexual Assault Nurse Examiner – Pediatric Course. Children’s Mercy Hospital.

“Gay, Lesbian, Bisexual Issues.” (2009, 2011). Invited guest speaker at Kansas University Med Center, Child Psychiatry Residency Program, Kansas City, KS.

“Providers Speak: Lessons Learned from Working with Diverse Populations.” (2008) Grand Rounds presentation, Children’s Mercy Hospital, Kansas City, MO.

Scholarly Activity: Apodaca, T.R., & Moser, C. (2011). The use and abuse of prescription medication to facilitate or enhance sexual behavior among adolescents. *Clinical Pharmacology & Therapeutics*. 89(1):22-4.

Moser, C., Batterson, J.R., Egan, A. (2010, 2011). Sexual and Gender Minority Youth: Risk and Resilience. Continuing Education Workshop presented at the 2011 Annual Convention of the American Psychological Association.

Cynthia Call, PsyD:

Clinical Duties: Primary clinical duties are to provide assessment and early intervention to children and adolescents (ages 4-17) with autism spectrum disorders, developmental disabilities, and complex internalizing and externalizing behaviors. Clinical interests also include school consultation, mood and affective disorders, attention deficit disorders, and childhood trauma and maltreatment. Provide clinical training and supervision to psychology interns and postdoctoral fellows.

Community Outreach: Bi-State Autism Committee member. Recent member of Hazelwood School District Advisory Committee for Safe and Drug-Free Schools programs.

Scholarly Activity: Detrick, P., Chibnall, J.T., & Call, C. (2010). Demand Effects on Positive Response Distortion by Police Applicants on the Revised NEO Personality Inventory. *Journal of Personal Assessment*, 92(5), 410-415.

Trista Perez Crawford, PhD:

Clinical Duties: I work primarily at the Broadway Clinics providing assessment and behavioral interventions for children in the ADHD Clinic, Spanish Speaking families, and children and families with behavioral concerns followed in the Primary Care Clinics (PCC). I also conduct cognitive, emotional, and adaptive assessments for girls with Turner Syndrome through the Great Heights Clinic.

Administrative Activities: Work with Equity and Diversity team, Spanish Bilingual Assistant program, Advanced Medical Interpreting and other medical interpreting courses to improve our services for Spanish-speaking families in the areas of child development, mental health, behavior, and access to healthcare.

Scholarly Activity: Perez, T.A. (August, 2010). Improving face and emotion recognition skills in a Head Start population using a computer-based intervention. (Presented as part of a symposium, “Interactive Computer Games Improve Emotion and Facial Recognition Abilities”) at the annual convention of the American Psychological Association, San Diego, CA.

Perez, T.A., Clay, O., & Biasini, F. (April, 2008). Improving child outcomes through a computer intervention designed to improve Head Start children's social skills. (Presented as part of a symposium, “Improving Outcomes for Head Start Children, Parents, and Families”) at the annual meeting of the National Head Start Association, Nashville, TN.

Maria Korth, PhD:

Clinical Duties: Inpatient and outpatient assessment and treatment of children and adolescents with TBI, concussion, spinal cord injury, spina bifida, stroke, and other presentations seen by the rehabilitation service.

Administrative Activities: Coordinator of internship diversity training and didactics

Rachel Moore, PhD:

Clinical Duties: primarily dedicated to the Hematology/Oncology and Nephrology (Dialysis/Transplantation) services conducting neuropsychological evaluations, pre-kidney psychosocial transplant evaluations, inpatient consultation/liaison services, and outpatient therapy.

Community Outreach: "Recalibrating to the Positive: Parenting Tips & Strategies" (2011). Invited presentation to parents at Parents University in Lee's Summit, MO.

Hilary Boorstein, PhD:

Clinical Duties: Assessment of, and behavioral interventions for, children and adolescents with severe intellectual or multiple disabilities. Part-time in Metabolic Genetics program and member of multidisciplinary Feeding Clinic for infants and children with various medical disorders. Also cover inpatient consults as part of our consultation/liaison service.

Administrative Activities: Coordinator of case conferences for interns and fellows.

Community Outreach: "Neurologic and Developmental Consequences of ECMO and ECPR" (2013), Oral presentation for CME at Children's Mercy Hospital for PICU and NICU nurses, Kansas City, MO.

"Special Education: What Nurses Need to Know". Oral presentation at Children's Mercy South for Nursing CME program, Overland Park, KS.

"Emerging Sexuality and ASD" (2013). Invited speaker for Autism Works, Liberty, MO

"Parenting Children with Multiple Diagnoses: When 1+1 Equals More than 2." (2012), Invited speaker for Midwest Foster Care and Adoption Agency (MFCAA), Independence, MO).

"A Guide to Autism Research and Treatments: What Do We Know about What is Out There?" (2010), Autism Today, Kansas City, MO

Pediatric Psychology Track

Josh Hall, PhD:

Clinical Duties: Neuropsychological assessment of children and adolescents with seizures, cardiac problems, TBI, Tourette's syndrome, and other neurological conditions.

Administrative Activities: Co-facilitator of "testing geeks" professional development group. Assisting in development of cardiac neurodevelopmental program.

Community Outreach: On advisory board of Joshua Center; On advisory board of Epilepsy Foundation of Kansas and Missouri

Scholarly Activity: Hall, J. J., Batterson, J. B., & Snow, J. H. (In Press). The Neuropsychology of Tic Disorders. In C.A. Noggle & R.S. Dean (Eds.). *The Neuropsychology of Psychopathology*. New York: Springer Publishing Company.

Psychiatry Medical Staff

James R. (Bob) Batterson, MD, FAACAP:

Specialty Interests Tourette's Syndrome, Attention Deficit Disorders, Obsessive Compulsive Disorders

Medical School

University of Missouri - Kansas City
Kansas City, MO, 1987

Residency: Psychiatry

Medical University of South Carolina
Charleston, SC

Fellowship: Child Psychology

Brown University Department of Child Psychiatry
Providence, RI

Certifications:

General Psychiatry
Child & Adolescent Psychiatry

Shayla Sullivan, MD, FAACAP:

Specialty Interests Anxiety; ADHD; Tourette's Syndrome; Eating Disorders

Medical School

University of Kansas School of Medicine
Kansas City, KS, 2005

Residency: Adult Psychiatry

University of Kansas Medical Center
Kansas City, KS, 2008

Fellowship: Child Psychiatry

University of Kansas Medical Center
Kansas City, KS, 2010

Certifications:

General Psychiatry

Catherine Madden, MD, FAACAP:

Specialty Interests Psychiatric Issues Associated with Early Childhood; Developmental Delay

Medical School

University of Kansas School of Medicine
Kansas City and Wichita, KS, 1987

Residencies:

Pediatrics

University of Utah,
Salt Lake City, UT, 1988

Psychiatry

University of Utah
Salt Lake City, UT, 1991

Fellowship: Child & Adolescent Psychiatry

University of Utah, Salt Lake City, UT, 1993

Certifications:

Child & Adolescent Psychiatry
General Psychiatry

Debra Willis, DO, FAACAP:

Specialty Interests Individualized Treatment of Emotional and Behavioral Disorders in Children and Teens; Providing Education, Psychotherapy and Medication Management; Anxiety and Depressive Disorders; Community Advocate for Children and Teens with Emotional Disorders

Medical School

Kansas City University of Medicine and Biosciences
Kansas City, MO, 1986

Residency: Adult Psychiatry

University of Kansas Medical Center
Kansas City, KS

Fellowship: Child & Adolescent Psychiatry

University of Kansas Medical Center
Kansas City, KS, 1993

Certifications:

Child & Adolescent Psychiatry
General Psychiatry

Developmental and Behavioral Pediatricians

Michele Kilo, MD:

Clinical Duties: Autism Spectrum Disorders, Intellectual Disability and Related Disorders, ADHD

Administrative Activities: Director of the Division of Developmental and Behavioral Sciences; Chair of the Medical Staff Aid Committee; Member of Medical Staff Performance Review Committee; Appointment Member of Missouri State Medical Association Physician Health Committee; Member of UMKC SOM Board of Visitors; Member of UMKC SOM Alumni Board

Community Outreach: Chair of the Jellybean Conspiracy Board of Directors; Member of Juvenile Diabetes Research Foundations Board of Directors; Member of Bi-State Autism Initiative; Member of Crittendon Children's Center Board of Directors; Community Advisor for Solace House; Member of Children's SPOT Advisory Board

Scholarly Activity: Grants:

"Bistate Autism Initiative: Planning Grant," Morgan Family Foundation ,
Role: Facilitator

"Exogenous and endogenous biomarkers of CYP2D6 variability in pediatrics" (2009 – Present), NIH-NICHD R01 HD058556-01A1, Leader (PI)

Carol Garrison, MD, FAAP:

Clinical Duties: ADHD, Developmental Delay, Intellectual Disabilities, Autism Spectrum Disorders,

Administrative Activities: Program Director for Developmental Behavioral Fellowship; Member of Association of Pediatric Program Directors; Member SDBP Education Committee; Member of SDBP Fellowship Training Committee

Scholarly Activity: Grants: "Nutrition and Bone Density in Adolescents with Autistic Spectrum Disorders" (2009), Grant: Katherine B Richardson Foundation (\$25,000) **Role: Co-I.**

Publications:

Clinical Social Workers

Stephanie Andrews, LCSW:

Clinical Duties: individual and group therapy utilizing family systems approach to patients and families, as well as CMH staff.

Administrative Activities: Program development for the Center for Professionalism and Wellbeing with a focus on Mindfulness-Based Stress Reduction.

Scholarly Activity: Grants include: \$100,000 Health Care Foundation of Greater Kansas City (Expansion of Evidenced Based Therapies by Family Therapists); \$40,000 Health Care Foundation of Greater Kansas City, Applicant Defined Grant; \$33,000 Health Care Foundation of Greater Kansas City, (AF-CBT)

Deborah Brookstein, LCSW:

Clinical Duties: Provide family therapy and crisis stabilization services in D&BS, SCAN Clinic, and through the family therapy consultation and liaison service.

Administrative Activities: Program Manager for the family therapy team, which includes the family therapists and the D&BS psychiatric social workers; Provide clinical supervision for social workers seeking clinical licensure.

Community Outreach: Frequent presenter both within CMH and in the community on topics such as the effects of trauma on children, mental health needs of children who have experienced trauma, evidence-based trauma treatment for children/adolescents, and family therapy treatment.

Kelly Trowbridge, LCSW:

Clinical Duties: Testing specialist

Patty Davis, LCSW:

Clinical Duties: I work as a family therapist for patients in D and BS as well as Eating Disorders Clinic. I also work as part of a multidisciplinary team in the SAHF (Safe and Health Families: Childhood Trauma Treatment and Prevention) team. Within this team, I provide family therapy as well as the following EBP's: TFCBT (Trauma Focused Cognitive Behavior Therapy), PCIT (Parent Child Interaction Therapy) and AFCBT (Alternatives for Families, A Cognitive Behavior Therapy).

Administrative Activities: Acting member of the CMH Council of Violence Prevention. (This council was designed to bring together professionals from CMH to address issues related to violence within our hospital, our patient's lives and our community, to promote an environment where patients, families, and staff feel safe, to support and increase awareness of the negative health effects of exposure to violence, to adopt a comprehensive standardized approach to the service provision, education, and advocacy activities related to violence prevention, and to provide advisory support to hospital leadership and staff on the state of the science in violence research, standards for best practice, and new innovations.)

Community Outreach: Presentations to the community covering: Evidence based practices (TFCBT, PCIT, AFCBT) for treating children with trauma symptoms and Impact of Eating Disorders on families.

Scholarly Activity: 2011-2013 33,000 HCF grant for Alternatives For Families: A Cognitive Behavior Therapy. May 2013-present *Analysis of Clinical Practice Guidelines for Eating Disorders*. Investigation and review of Clinical Practice Guidelines for Eating Disorders by Children's Mercy Hospital and Clinics Eating Disorder Center Staff.

Clinical Social Workers (continued)

Lisa Polka, LCSW, LSCSW:

Clinical Duties: family therapist for hospital and community referrals; part of a multidisciplinary team in the SAHF (Safe and Healthy Families: Childhood Trauma Treatment and Prevention) team. Within this team, I provide crisis stabilization as well as the following EBP's: PCIT (Parent Child Interaction Therapy), TF-CBT (Trauma Focused Cognitive Behavior Therapy) and AFCBT (Alternatives for Families, A Cognitive Behavior Therapy).

Community Outreach: Presentations to Children's Mercy Hospital staff as well as the community educating primarily on Parent Child Interaction Therapy and evidence based trauma treatment, TF-CBT and AF-CBT.

Johnson County Infant Toddler Services board member

Scholarly Activity: Involvement in current research entitled "Teaching Effective Parenting Skills One Resident At A Time" The aim of this study is to determine the effect of participation in the Child-Adult Relationship Enhancement Workshop on pediatric residents' attitudes, beliefs, self-efficacy and reported clinical practice with regard to recognizing and discussing ineffective adult-child interactions with parents as well as the effect on residents' ability to utilize effective adult-child interaction skills.

Jenna Reddoch, LCSW:

Clinical Duties: Family therapist at the Northland D&B clinic as well as the SCAN Clinic. Part of a multidisciplinary team in the Safe and Healthy Families: Trauma Prevention and Treatment Center (SAHF TPTC). I provide the following EBP's: TF-CBT (Trauma-Focused Cognitive Behavioral Therapy), PCIT (Parent-Child Interaction Therapy) and AF-CBT (Alternatives for Families: A Cognitive Behavioral Therapy). I also cover inpatient hospital consults for family therapy needs.

Community Outreach: Presentations on PCIT and Family Therapy to hospital and community organizations.

Scholarly Activity: 2012 HCF applicant defined grant for family therapy; 2012-2013 HCF grant for family therapy.

Susan Buschmann, LCSW:

Clinical Duties: Family therapist

Charlotte Dennis, LCSW:

Clinical Duties: Family therapist

Linda Housh, LCSW:

Clinical Duties: Family therapist

Laurie Reinhold, LCSW:

Clinical Duties: Family therapist at the Northland D&B clinic as well as the SCAN Clinic. Part of a multidisciplinary team in the Safe and Healthy Families: Trauma Prevention and Treatment Center (SAHF TPTC). I provide family therapy and the following EBP's: TF-CBT (Trauma-Focused Cognitive Behavioral Therapy), PCIT (Parent-Child Interaction Therapy) and AF-CBT (Alternatives for Families: A Cognitive Behavioral Therapy). I also cover inpatient hospital consults for family therapy needs.

Community Outreach: Presentations on evidenced-based trauma treatment to hospital and community organizations.

Scholarly Activity: 2012 HCF applicant defined grant for family therapy; 2012-2013 HCF grant for family therapy.
