

The School TLC STUDY

TLC stands for COVID-19 Testing, Learning, and Consultation for Safe In-Person Learning

- Children's Mercy has partnered with Kansas City Public Schools (KCPS) and Mattie Rhodes Center to offer **free** COVID-19 testing through the School TLC Study.
- The purpose of the study is to help prevent the spread of COVID-19 in schools and promote safe in-person learning.
- All KCPS students, staff, and community members can get tested for COVID-19 at Mattie Rhodes Center. If you are a KCPS student or staff, you can also get tested at school.
- The COVID-19 test is a nose swab that only goes into the tip of each nostril for 10 seconds. It doesn't hurt, but it might tickle.

SIGN UP TODAY!

it is free, easy, and safe!
