

Transition Program

How well can your students manage their own health?

Keep the phone number of their primary care physician in their phone?

Know where to get medical care when the doctor's office is closed?

Do they know what will cause their medical condition to cause problems? When it is unstable? When to ask for help?

This is your chance to make a difference.

Can they describe their medical history? Have a copy of their current plan of care?

Know their pharmacy and how to refill their meds?

Know about discount programs like GoodRX or prescription co-pay discount cards?

Do they understand their insurance? Have they copied and saved a picture of it in their phone?

Do they know their medications....what they are, what they do, and how they are supposed to take them?

Do they know their allergies to medicines and medicines they should not take?

How would your students rate themselves? If less than a 5, they are not engaged.
